Developments in the rewards area*

Dear << Test First Name >>,

We hope you enjoyed a nice and warm summer.

We are looking forward to kick start the autumn season with a Back to Work Mingle and Go Innovation Lab together with the Swiss and French Chambers of Commerce on Thursday 13 September 2018.

Join us and meet with other professionals, business leaders and whoever is interested in innovation and share your experiences.

At this Back to Work event we welcome [Bart Geraads](#), SVP Compensation & Benefits - Volvo Group as our guest speaker.

Bart Geraads will discuss the latest developments in the rewards area (pay for performance, employer branding, demographic changes resulting in having multiple generations active on the work floor, and globalisation).

This requires innovative solutions to ensure a high perceived value of scarce reward resources, resulting in strong recruitment, retention and performance.

Read more about Bart Geraards background on [the website of the Dutch Chamber of Commerce](#).
